

# Background Study

# Extracting urban features from LiDAR digital surface models

- Elsevier, 2008
- Worked on extracting surface features from the image

Use of airborne imaging spectrometer data to map minerals associated with hydrothermally altered rocks in the northern grapevine mountains, Nevada, and California

- Elsevier, 1998
- Find different ground surface like rock.
- Remote sensing the environment

# Automated Road Information Extraction From Mobile Laser Scanning Data

- IEEE, 2014
- Extracting information from moving vehicle with help of a laser image
